YNP - NEW GENERATION PRECAST

PRECAST SOLUTIONS – Strength Meets Aesthetics

At TBEMSTORK, we believe that every building deserves both durability and elegance. Our precast concrete products are designed to combine strength, functionality, and timeless beauty, offering architects and contractors reliable solutions for façades, structural elements, and decorative designs.

Produced with modern technology and strict quality standards, our precast systems ensure:

- Long-lasting resistance to all weather conditions
- Faster and easier installation
- Smooth and aesthetic finishes
- Customizable shapes and designs

With TBEMSTORK precast, you don't just build — you create lasting value and unique character for every project.

PRECAST - YNP

Our cement-based precast products are long-lasting and resistant to cracking or breaking. Inspired by Roman architecture, our special mix is reinforced with white cement, zirconium, and fiber for strength and elegance.

PRODUCT GROUPS

Cornices

Decorative and durable solutions that enhance the architectural character of buildings.

Floor Moldings

Elegant and strong precast details that highlight floor transitions.

Window & Door Surrounds (Söves)
